

Temperature Switch

Temperature switches permit opening or closing an electrical circuit in order to reach a fixed temperature value.

Technical Features:

Body:in Brass square

Assembly:in every position

Hydraulic connection:G1/2" (as per customer request)

Working temperature:from 40°C to 130°C

Switching accuracy:± 3°C

Max Pressure:100bar

Electrical Fetures:

-Electric connection in accordance to DIN 43650

-Electric protection:IP65

-Max load on contacts:230VDC 10A
